

Small Garden Cage Instruction Guide

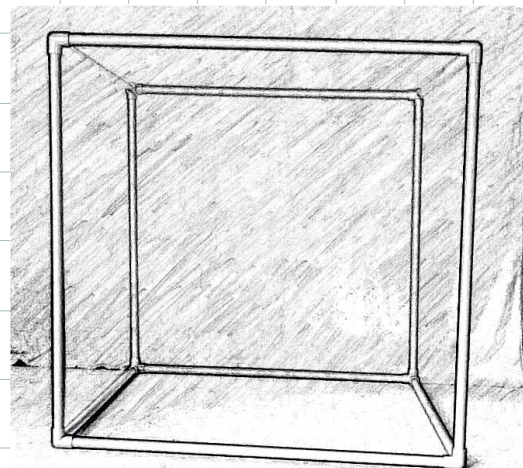

Step 1 - Lay down 4 lengths of PVC pipe in a square.
Connect a 3 way connector in each corner gently tapping with a rubber mallet to secure them in place.

Parts needed :

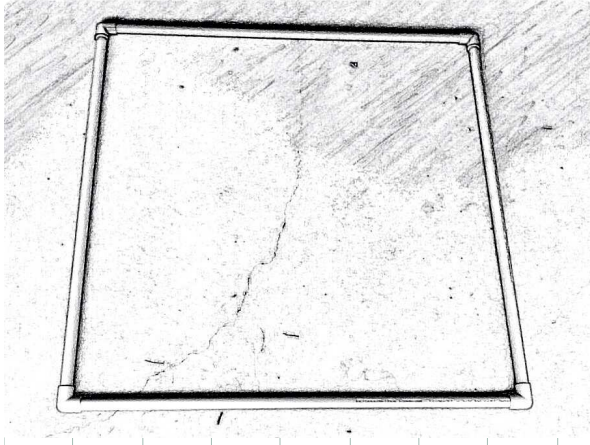

- 4x Elbows
- 8 x 3 ways
- 1 x Netting
- 16 x PVC pipe 20mm
- 2 x Aluminium hinges
- 20 x Snap Clamp
- 4 x Metal ground pegs

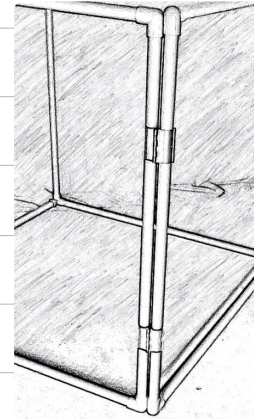

Step 2 - Insert a PVC pipe firmly into each corner in the 3 way.

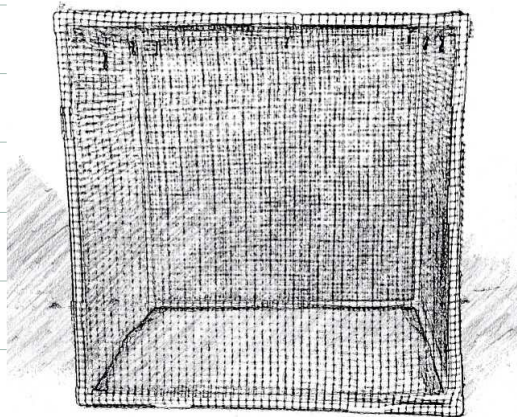

Step 3 - Firmly position a 3 way on the end of each pipe then connect them together with a piece of pipe to make a cube.

Step 4 - To make the door of the cage, join 4 lengths of pipe together with the 4 elbows to make a square.

Step 5 - Attach this square to the front of the cube with the hinges provided.
(the hinges can be quite firm to push on)

Step 6 - Wrap the netting around the cage starting at the edge of the door and ending at the same point on the cube. Use the snap clamps to keep the netting in place start by using these at the top and work your way around. Cut the netting after this so that you have a piece left over this will be used for the roof. Attach the roof with the "S" clips provided.

Step 7 - Position the cage over the area needed and peg the cage to the ground.

Enjoy your masterpiece and the fruits of your labour :)
